

# WattStation<sup>\*</sup> Connect

## Fact Sheet

### Overview

**Advanced Network Capabilities:** WattStation Connect software is a web-enabled, cloud-based system to configure and manage your optionally equipped GE WattStation or GE DuraStation, offering user and usage management, controlled access and third party payment processing. Our Application Programming Interface ("API") helps you to interface with your own building or fleet management systems including email. You just choose the communications platform (CAT5, WiFi or available Cellular<sup>1</sup>).

### Product Features and Benefits

- **Manage. Monitor. Maintain:** WattStation Connect provides a user-friendly cloud-based web application for owners to configure, control and monitor their charging station network. Timely information about the state of their charging stations gives owners the ability to diagnose and manage problems remotely.
- **Simple Access Control:** WattStation Connect provides owners with the ability to restrict access to their stations through the use of an RFID card. Our simple to use web interface makes it easy to grant access to drivers.

Use WattStation Connect to find charging stations, authorize charging sessions and manage charging station activity.

- **Set Pricing:** WattStation Connect provides owners with the ability to set pricing for their stations through the use of a desktop web-enabled system. Choose the price schedule to fit your needs; change it when your needs change with just a few clicks!
- **Offer Payment Options:** WattStation Connect provides one of the most flexible payment options in the market. WattStation and DuraStation equipped with WattStation Connect accommodate payments through PayPal and Credit Card payments through iPhone and Android devices.
- **Open Platform:** WattStation Connect Web Services enable you to integrate data from the WattStation network into your existing systems using an Application Programming Interface (API). Our unique open platform has allowed multiple 3rd parties to develop new features and content for your benefit.

<sup>1</sup>Cellular access requires an annual fee – see your authorized GE distributor for pricing details.

## Specifications

<b>Registration</b>	Drivers: Register by entering your name, email address and create a password (terms and conditions apply) Business Owners: Users may also request access to a business owner domain.
<b>Find Station</b>	Locate stations based on address, zip code or dragging the map to your specific area of interest. Users will be able to view stations, availability and station details (pricing, address, owner name, etc)
<b>Dashboard</b>	Take your EV infrastructure project to the next level with the WattStation EV charger and WattStation Connect software. This integrated hardware and software solution can help manage your charging stations remotely, enable EV drivers to find stations at your facilities, generate valuable reports, and engage with customers in new and meaningful ways.
<b>Users</b>	Authorize users, define user groups, manage user accounts
<b>Stations</b>	Provision and set-up of new installations, manage stations and update information, and set-up automatic message notifications.
<b>Planning/Pricing Options</b>	Define and create pricing models for stations and user groups. Options include: <ul style="list-style-type: none"> <li>• Pay Flat Rate. E.g., set a fixed price, regardless of the duration of the charging session.</li> <li>• Pay As You Charge. E.g., set a fixed price for every hour your driver will charge his vehicle.</li> <li>• Pay By Time. E.g., set a fixed price based on the duration (hourly) of each transaction.</li> <li>• Other customized options available.</li> </ul>
<b>Access Cards Management</b>	Manage access cards and user assignments for your charging stations. GE offers a 10-pack Access Card that Owners can purchase and distribute for free authorized access.
<b>Reports</b>	Generate various reports for station operators, including revenue, energy usage, system faults, and per driver charge session.
<b>Settings</b>	Update your account information (name, address, contact info, password, etc.) and allow EV Driver to enroll with PayPal or PlugShare for other pricing options, set up permissions and accept payment for EV charging by mobile phone.
<b>Mobile Application (EV Driver)</b>	This mobile app provides three functionalities: <ul style="list-style-type: none"> <li>• Find a Station</li> <li>• Pay for Usage</li> <li>• Account Management</li> </ul>
<b>Mobile Application Availability</b>	<ul style="list-style-type: none"> <li>• GE WattStation</li> <li>• PlugShare</li> <li>• Apple App Store</li> <li>• Android Market</li> </ul>
